Fractastic OS

Frack Valve Lubricant/Sealant

Description:

Fractastic OS is a high tack lubricant sealant for use in gate valves and plug valves in fracking applications. It is resistant to shear and washout from turbulence, flow improvers, breaker fluids, dilute acids and caustics. It is waterproof and has excellent resistance to oxidation and high metal adhesion. Fractastic OS should be used as a gate valve lubricant/sealant or as a plug valve lubricant/sealant. (Winter Grade available to -29 F)

Applications:

For use in frack valves and pressure control applications.

Features:

- Fully additive treated
- 100% synthetic
- High metal adhesion
- Inhibited for acid services
- Excellent in extreme pressure applications
- Biodegradable
- Insoluble in water

Physical Properties:

- Color..... Gray to black
- Temperature Range..... -15 to 400°F (Winter Grade to -29F)
- Consistency, Cone Penetration (D-217) 220 to 250
- Drop Point, °C..... None
- Thickener Inorganic
