Valve Saver

Valve Cleaner

Description:

Valve Saver is a combination valve cleaner and penetrating lubricant engineered to free up and clean out difficult or impossible to operate lubricated valves. Lubchem's Valve Saver penetrates and cleans residual gum, lacquer, hardened sealants and lubricants. Valve Saver also removes rust and corrosion extending the life and performance of all types of lubricated valves. When used regularly it will prevent additional build up.

Applications:

Apply Lubchem Valve Saver with conventional lubricating equipment. Turn valve slowly and repeat the process until valve opens freely. After the valve is operable, lubricate with one of Lubchem's high quality valve lubricants.

Features:

- Compatible with all valve lubricants
- Cuts residual gum and lacquer deposits left by valve lubricants
- Removes rust and corrosion
- Eliminates costly shut down and valve removal
- Do not use in oxygen service

Physical Properties:

- ColorBlack
- Temperature Range-65 to 550°F
- Consistency, Cone Penetration (D-217) 280 to 350
- Drop Point, °C None
- Thickener Inorganic
