

## Technical Data Sheet

### Fractastic 611 Winter Grade

Frac Valve Lubricant/Sealant

#### Description:

Fractastic 611 Winter Grade is a high tack lubricant/sealant for use in frac valve applications. It is resistant to organic acids, dilute acids and caustics, friction reducers, polymers, hydrocarbons, and co-solvents commonly used in frac operations. It is waterproof and has high metal adhesion.

#### Applications:

For use in frac valves and pressure control applications. DO NOT use in oxygen services

#### Features:

- Fully additive treated
- 100% Synthetic
- High metal adhesion
- Inhibited for acid services
- Biodegradable
- Insoluble in water

#### Physical Properties:

- Color ..... Off White
- Temperature Range..... -20 to 400°F
- Consistency, Cone Penetration (D-217) ..... 260-280
- Drop Point, °C..... None
- Thickener..... Inorganic
