

Technical Data Sheet

Longlife 1600

Multi-Purpose Lubricant

Description:

Longlife 1600 is non-melting, water resistant, fully additive treated with corrosion inhibitors, extreme pressure additives and oxidation inhibitor additives. It is an excellent choice where water resistance and a light valve grease is recommended.

Applications:

Use on swivel joints, pumps and flanges. Suitable for use in hydrocarbon gasses. DO NOT use in oxygen service.

Features:

- Outstanding performance
- Water insoluble and washout resistant
- Fully additive treated
- Non-melting multipurpose grease
- Superior protection to lubricate a wide variety of heavy-duty equipment
- Low Staining

Physical Properties:

- Color Tan
- Temperature Range-35 to 350°F
- Consistency, Cone Penetration (D-217) 265 to 295
- Drop Point, °C None
- Thickener Inorganic
